Wait… how do I submit the form
if there is no button?

With a button of
type="submit" you can
use the event
@submit

(Validations will be consider)

```
<dynamic-form
  :id="testForm.id"
  :fields="testForm.fields"
  :options="testForm.options"
  @submit="submitForm"
>
<button submit="true"
  :form="testForm.id" >
  Submit
</button>
```
